ABOUT ME

As a Full-Stack Developer with over 3+ years of experience, I specialize in building user-centric interfaces and optimizing web/mobile performance. I am passionate about web development and enjoy finding creative solutions to complex problems. I am a quick learner, always striving to deliver high-quality work. I am continuously seeking opportunities to expand my skill set.

WORK EXPERIENCE

re:soft (Full-Time)

Apr 2022 - Present

Full-Stack Developer

- I am Full-Stack Web/Mobile Developer at re:soft. I've created numerous user interfaces, and these experiences have further honed my ability to collaborate seamlessly with my teammates.
- Collaborated with designers to match their vision and improve user experience.
- Use Git for version control and collaborating with team members.

Alliance Group (Part-Time)

Jan 2023 - Present

Front-End Developer

- I am currently working part-time and have developed the Alliance Group web project as a Next.js front-end developer, focusing on ensuring fast web performance.

Gethome.ge (Part-Time)

Mar 2023 - Dec 2023

Full-Stack Developer

- Worked on GetHome, a platform connecting users with their ideal homes.
- Integrated APIs to connect front-end with back-end services.
- Improved website speed by optimizing images and code.
- Tested web pages to fix bugs and ensure quality.
